

Mr. Chairman and Members of the Committee,

I am Bob Adams, of Helena, President of the Montana Conservation Voters Education Fund. I'm here in behalf of that organization and the Montana Conservation Voters, both of whom support HB 130. The Montana Conservation Voters Education Fund seeks to improve voter participation and to ensure the integrity and efficiency of our voting system.

We support HB 130 because we believe it removes barriers to voter participation that exist in current law, and can increase voter participation in elections. Those barriers had not been addressed in the legislation brought before this committee in 2009, and we opposed the previous bill. We appreciate that the Secretary of State and the sponsor and others have worked hard to identify solutions to issues we and others had previously identified.

HB 130 addresses those issues, and it now balances the diverse concerns of fostering greater voter participation, ensuring secure elections and promoting efficiency and cost effectiveness.

We urge your support.

Thank you.

Bob Adams,

for Montana Conservation Voters Education Fund and Montana
